

Certificate of Cloud Security Knowledge Questions & Answers Demo

Version: 6.0

Question: 1	
All cloud services utilize virtualization technologies.	
A. False B. True	
b. True	
	Answer: B
Question: 2	
If there are gaps in network logging data, what can you do?	
in there are gaps in network logging data, what can you do:	
A. Nothing. There are simply limitations around the data that can be log	ged in the cloud.
B. Ask the cloud provider to open more ports.	
C You can instrument the technology stack with your own logging	
C. You can instrument the technology stack with your own logging. D. Ask the cloud provider to close more ports.	
C. You can instrument the technology stack with your own logging. D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available.	
D. Ask the cloud provider to close more ports.	Answer: C
D. Ask the cloud provider to close more ports.	Answer: C
D. Ask the cloud provider to close more ports.	Answer: C
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any practice or any other actions which modify risk. A. Risk Impact B. Domain	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any practice or any other actions which modify risk. A. Risk Impact	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any practice or any other actions which modify risk. A. Risk Impact B. Domain	
D. Ask the cloud provider to close more ports. E. Nothing. The cloud provider must make the information available. Question: 3 CCM: In the CCM tool, a is a measure that modifies risk and includes any practice or any other actions which modify risk. A. Risk Impact B. Domain	y process, policy, device,

Who is responsible for the security of the physical infrastructure and virtualization platform?

- A. The cloud consumer
- B. The majority is covered by the consumer
- C. It depends on the agreement
- D. The responsibility is split equally

Answer: E	E. The cloud provider	
Overtion F		Answer: E
Question: 5	Question: 5	

What factors should you understand about the data specifically due to legal, regulatory, and jurisdictional factors?

- A. The physical location of the data and how it is accessed
- B. The fragmentation and encryption algorithms employed
- C. The language of the data and how it affects the user
- D. The implications of storing complex information on simple storage systems
- E. The actual size of the data and the storage format
