---

---

#### **Question: 5**

---

Your customer has employees in five different countries. In those countries, a total of three different languages are used: English, German, and French. The end-of-cycle compensation statement needs to be in each of those three languages. How can you accomplish this using the standard compensation statement template?

- A. Create one version of the statement Clone the statement and translate the text into the two other languages. Use statement groups based on the employee preferred language to appropriately assign the template.
- B. Create one version of the statement Clone the statement and translate the text into the two other languages. Use statement groups based on the employee country to appropriately assign the template.
- C. You need to use a custom statement. Use statement groups based on the employee country to appropriately assign the template.
- D. Create one version of the statement that has all three languages sequentially. Assign this template to all employees.
