

## Juniper Cloud-Associate (JNCIA-Cloud) Exam

Questions & Answers Demo

## Version: 9.0

According to the juniper network, what is the recommended external routing protocol for the underlay network?  A. IS-IS B. EGP C. OSPF D. BGP  Which two capabilities are supported with the cSRX firewall?(choose two)  A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE? A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A  Question: 4				
network?  A. IS-IS B. EGP C. OSPF D. BGP	Question: 1			
B. EGP C. OSPF D. BGP  Answer: D  Question: 2  Which two capabilities are supported with the cSRX firewall?(choose two)  A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A		rork, what is the recommended	l external routin	g protocol for the underlay
Which two capabilities are supported with the cSRX firewall?(choose two)  A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	B. EGP C. OSPF			
Which two capabilities are supported with the cSRX firewall?(choose two)  A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A			_	Anaman D
Which two capabilities are supported with the cSRX firewall?(choose two)  A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A			_	Answer: D
A. IPS B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	Question: 2			
B. routing instances C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	Which two capabilities are sup	pported with the cSRX firewall?(	choose two)	
C. chassis clustering D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	A. IPS			
D. Layer 2 deployment  Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	_			
Answer: A, B  Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	_			
Question: 3  Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	D. Layer 2 deployment			
Which cloud CPE component manages the end-to-end path from the CPE to the central office or to another CPE?  A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A			_	Answer: A, B
A. service orchestration B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	Question: 3			
B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A		manages the end-to-end path	n from the CPE	to the central office or to
B. infrastructure orchestration C. physica telco cloud infrastructure D. virtual network functions  Answer: A	A. service orchestration			
D. virtual network functions  Answer: A				
Answer: A		ucture		
	D. virtual network functions			
Question: 4			_	Answer: A
	Question: 4			

What are two objectives of SDN?(choose two)

A. centralization of control plane B. physical separation of the control plane from the data plane C. centralization of the forwarding plane D. centralization of the services plane Answer: A, B Question: 5 What is an advantage of the Junos Telemetry Interface(JTI) over SNMP? A. JTI can pull data more frequently B. JTI always transfers data over HTTP C. JTI never transfers data over UDP D. JTI can push data more frequently Answer: D **Question: 6** You have 100 small branch offices around the world. You must use a single pane of glass to monitor EX Series devices for port status, ports exceeding maximum bandwidth, ports with maximum errors, and ports with maximum packet loss In this scenario, which product would satisfy the requirement? A. Contrail SD-WAN B. Contrail SD-LAN C. Contrail Networking D. Contrail Cloud Answer: A **Question: 7** Which two statements are correct about the NFV framework?(Choose two)

A. The NFV framework is defined by ANSI

- B. The NFV framework is defined by ETSI
- C. The NFV framework enables horizontally scalable deployments of services
- D. A spine and leaf implementation is an example of the NFV framework

Answer: B, C

Question: 8	
Which mechanism allows tenants to interconnect across an overlay network	<b>‹</b> ?
A. tunnels	
B. subnets	
C. EBGP connections	
D. P2P OSPF adjacencies	
	Answer: A
Question: 9	
What are two examples of SaaS?(Choose two) ************	
A. Amazon Web Services	
B. SalesForce	
C. Google Apps	
D. IBM Cloud	
	Answer: A, B
Question: 10	
Which two Juniper devices are used as a CSO CPE devices(Choose two.)	
A. SRX	
B. NFX	
C. QFX	
D. MX
