Question: 1	
Which RingMaster license is needed to enable the RingM	aster API?
A. base license	
B. USM license	
C. Agent license D. AP license	
D. Ar license	
	Answer: C
Question: 2	
A small business is using Radio Frequency (RF) planning points (APs) needed for a coverage area. The company is association rate for clients to connect to the access (Choose two.)	trying to decide what to use forthe baseline
A. A baseline association rate of 54 Mbps requires mor Mbps.	e APs than a baseline association rate of 18
B. A baseline association rate of 18 Mbps requires mor	e APs than a baseline association rate of 54
Mbps.C. A baseline association rate of 54 Mbps requires the cl the targeted rate.	ient to be farther away from the AP toreach
D. A baseline association rate of 18 Mbps requires the cl the targeted rate.	ient to be farther away from the AP toreach
	Answer: A,D
Question: 3	
You are using the RF Planning tool in RingMaster to conf three settings are required on the Data Capacity Options	
A. AP authentication mode	
B. Per Station Throughput	
C. Expected Station Count D. Coverage Area	

Question: 4

E. Station Oversubscription Ratio

Multiple users are complaining that their wireless connections are not working. Which RingMaster screen would the administrator use for troubleshooting?

Answer: B,C,E

A. Alarms	
B. Clients	
C. Monitor	
D. Verification	
	Answer: C
Question: 5	
A network administrator must perform a software upgrade LANcontroller (WLC) using the CLI.Which three actions are required? (
A. Set the inactive boot partition to the active boot partition.	
B. Add an upgraded license for the new image.	
C. Copy the new image to the inactive boot partition using TFTP.	
D. Reboot the controller.	
E. Upgrade the connected access points (APs) before upgrading the co	ontroller.
	Answer: A,C,D
Overtion C	Answer: A,C,D
Question: 6	Answer: A,C,D
Question: 6 As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings	
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions	
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets	
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions	
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets	
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default?	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default? A. 1813	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning.Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default? A. 1813 B. 5001	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default? A. 1813 B. 5001 C. 1812	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning.Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default? A. 1813 B. 5001	ndio frequency (RF) obstaclesfor
As a designer, you know that RingMaster needs only the principle raplanning. Which three obstacles should be included? (Choose three.) A. external walls B. ceilings C. partitions D. file cabinets E. windows Question: 7 Which UDP port is used for RADIUS authentication by default? A. 1813 B. 5001 C. 1812	ndio frequency (RF) obstaclesfor
